CLAIMS 1-33 ARE PENDING

1. The following is an examiner's statement of reasons for allowance:

The prior art of record includes teachings of pattern recognition [6,243,615, 6,466,929]; adaptive pattern recognition [5,060,279]; predictive models [5,491,629]; and in more particular the use, determination, and modification of metadata in models [5,606,499, 5,918,232, 6,026,359, 6,393,387, 6,836,777].

However, the claims include the specific term *confounder*, defined in the specification at page 1 line 25 to page 2, line 1:

"Confounders are factors whose significance has been overlooked by the data analyst, but nevertheless influence the outcome of interest."

Adaptive factors and/or attributes that predict outcomes in models correspond generally to this term, but in the claims it is applied in a context in which it is specified and/or determined whether or not metadata specifying an influencing attribute of the model is a confounder for a particular outcome.

This combination of limitations in the context of the claims is neither anticipated nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wayne Amsbury whose telephone number is 571-272-4015. The examiner can normally be reached on M-F 6-18:30 FIRST WEEK.
